

Programme: COST

DENORMS Designs for nOise Reducing Materials and Structures	
Le Mans investigator: Jean-Philippe GROBY (CNRS)	Laboratory: LAUM
Duration: March 2016 – February 2020 (48 months)	Grant ID: CA 15125
Call:	

Summary:

DENORMS aims at designing multifunctional, light and compact noise reducing treatments. In order to achieve this, DENORMS brings together skills and knowledge of the complementary, but still disconnected, communities of scientists working on acoustic metamaterials, sonic crystals and conventional acoustic materials across Europe and overseas.
